

complete foods

At Healthy Paws we produce delicious, 100% natural, nutritious, healthy dog food and treats.

Our food and treats contain absolutely no preservatives, additives, flavourings, salt, added sugar, chemicals or unnatural ingredients of any kind. They are all dairy free with no wheat or wheat gluten and with no by-products or GM products.

Rabbit & Brown Rice Complete Food

Rabbit & Brown Rice is a nutritionally balanced complete dog food formulated from quality natural ingredients for all stages of your dogs adult life.

We do not add any flavour enhancers, colourings, chemical additives or preservatives that you can find in other dog foods. There are no additives, meat and animal derivatives, by-products or any other unsuitable ingredients appropriate for the dog. We only use the highest quality meat protein and other natural ingredients in a well balanced and complete formula.

The use of low quality ingredients, meat and animal derivatives, by-products and chemical preservatives that are found in other dog foods may be associated with numerous ailments including skin problems, allergies, dental disease, poor health, digestive disorders and internal organ diseases.

Rabbit provides a highly digestible source of good quality protein that is very nutritious. Whole brown rice provides an excellent source of highly digestible carbohydrates for short term energy and dietary fibre that is gentle on the stomach.

We have added oats to provide a slower release of energy along with carrot and cranberry providing valuable vitamins and minerals including vitamin C. Fish oils and organic sunflower oil provide a source of omega 3 essential fatty acids and Linoleic acid which are essential for maintaining a healthy skin and coat, whilst Seaweed is an excellent source of iodine and minerals. In addition we have added the natural herbs alfalfa, dandelion and cleavers for their known health benefits.

Healthy Paws Rabbit & Brown Rice is hypo-allergenic as it does not contain any wheat, wheat gluten, beef, soya, dairy products or any other ingredients that are associated with allergies or intolerances. It is a certified holistic product. This ensures that the product is manufactured to clearly identifiable quality standards and that the food contains a range of ingredients that reflect the natural diet of the dog.

natural treats

Peanut & Oat Biscuits

Dogs will love the taste our Peanut & Oat biscuits as they are packed full of healthy goodness. Peanuts are high in good quality protein and are a good source of monounsaturated oils and a good source of dietary fibre as well as being rich in antioxidants. We have combined peanuts with oats and compared to other grains they supply more B vitamins, vitamin E, linoleic acid, protein and soluble fibre.

We have used organic honey so as to fully utilise the beneficial effect that honey has on the stomach and intestines. Brewers yeast is an excellent source of all B vitamins and sunflower oil is a prime source of essential fatty acid linoleic acid which is vital to many health functions. We have added Alfalfa which assists

in the assimilation of proteins, fats and carbohydrates.

They are a Vegetarian dog treat which is naturally tasty and healthy.

Fruit Cookies

Despite what most people may think dogs can and do eat fruit. Both domesticated and wild dogs will eat fruit. Dogs are omnivores, which means they can eat almost anything. Fruits are mostly water and the major nutrient is soluble carbohydrates which produces energy. In addition they contain lots of fibre.

Healthy Paws Fruit Cookies is a biscuit full of fruity goodness. Apples provide a good source of dietary fibre and potassium. There is no fat, sodium or cholesterol in apples and they are a complex carbohydrate resulting in a quick release of energy. In addition, banana chips are a good source of potassium as well as vitamin

C and B6. They provide high grade protein and as with apples provide a quick energy boost.

We have added cinnamon which is an excellent source of the trace mineral manganese and a very good source of dietary fibre, iron and calcium. Along with sunflower oil which provides a prime source of the essential fatty acid linoleic acid and Sunflower Seeds which provide a rich natural source of vitamin E which is beneficial to maintaining a healthy heart.

Our Fruit Cookies are bursting with all the benefits of the key fruit ingredients in a convenient cookie form. They are GLUTEN FREE and are suitable for dogs that may be following a VEGAN diet.
